SUMMARY

Python Developer with hands-on experience in backend development, data analysis, and machine learning. Skilled in building data-driven applications, automation scripts, and API-based systems using Python, SQL, and modern libraries. Experienced in working on real-world tasks during internship with consistent high performance. Focused on developing scalable solutions and solving practical problems using clean and efficient code.

SKILLS

- **Programming & Querying** : Python, SQL
- **Backend & Frameworks** : Flask, Django, REST APIs
- **Databases** : MySQL, SQLite,PLSQL
- **Data Analysis** : Pandas, NumPy, Matplotlib, Seaborn, TensorFlow
- **Machine Learning & NLP** : Scikit-learn, NLTK, spaCy
- **Tools & Platforms** : Excel ,Tableau ,power BI ,Linux , Git

EXPERIENCE

❖ **Python Developer Intern | Alfido Tech (**Dec 2024 – Apr 2025**)**

- Worked on **backend development and automation tasks** using Python
- Built **database-integrated applications** using MySQL and SQLite
- Applied core concepts: **OOP, file handling, exception handling**
- Developed basic applications using **Flask/Django**
- Achieved **92.52% overall performance (A+)** during the internship

ACADEMIC PROJECTS

❖ **AI Resume Screener (Python, Machine Learning,LLM,API)**

- The AI resume screener is an advanced tool designed to enhance the recruitment process by automating the initial evaluation of job applications.
- Utilizing natural language processing and machine learning algorithms, it efficiently analyzes resumes to identify the qualified candidates based on specific job criteria.

❖ **Intelligent EDA Recommendation Engine (Python, Pandas, Data Profiling, Performance Analysis)**

- Developed a system that profiles uploaded datasets and recommends **optimal exploratory data analysis** tools based on **structural and computational characteristics.**
- Benchmarked multiple automated EDA libraries to analyze scalability, memory efficiency, and dimensional sensitivity.

❖ **CodePrism (Python,Streamlit,AST, SQLite)**

- The Skill Intelligence Lab is a designed to track and enhance technical problem-solving skills by automating code **evaluation** and **performance analysis**.
- Utilizing structural **code analysis** and **statistical modeling,** it analyzes user submissions to identify patterns in **accuracy, execution speed, and confidence calibration** across various computer science topics.

EDUCATION

❖ MCA | Dr. D.Y.patil institute of management and research *CGPA 7.04|2025*

❖ BCS(computer Science) | MGMs college of CS&IT *CGPA 8.22|2023*
